Education

The University of Hong Kong | BEng in Computer Science | Minor in Finance

Expected 2029

- CGPA: 3.74, SAT: 1550, Duolingo English Test: 150

Experience

Novo AI | Growth and Automations Intern

Jun 2026 – Present

HKU ITC STEM Internship Scheme (Innovation and Technology Commission) | GTM and RevOps automation

- Built a GTM agent system that turns public news, CRM and Sales Navigator exports, event calendars, and partner lists into ranked accounts, daily briefs, and human-reviewed outreach actions
- Developed agents tracking insurance market signals, AI regulation, competitors, customer pain points, and strategic accounts; shipped a CSV-first dashboard for RevOps workflows
- Built and launched Novo AI's production website, heyново.ai, and produced a reproducible end-to-end product demo video for sales and partner conversations
- Tracked site performance in Google Analytics and Google Search Console; optimized metadata, indexing, content structure, technical and on-page SEO, and generative engine optimization (GEO)

The University of Hong Kong | Student Teaching Assistant, ENGG1330

2026 – Present

Computer Programming I | School Peer Adviser (SPA), School of Computing and Data Science

- Lead tutorials for first-year engineering students on Python, program design, debugging, recursion, file handling, and searching and sorting algorithms
- Guide students through programming exercises, review and debug code with them, explain alternative solutions, and answer course questions during tutorials
- Advise first-year students as an SPA on course selection, programme planning, university transition, and academic and student-support resources

Free Malaysia Today (FMT) | Editorial and Digital Intern (Common Purpose)

Dec 2025 – Jan 2026

Digital publishing, SEO, content operations

- Managed website publishing, on-page SEO, and newsroom IT for FMT's digital platform, reaching 20M+ users globally while keeping web and video output on schedule
- Produced 3 video stories generating 100K+ total views across platforms and interviewed former Malaysian Prime Minister Ismail Sabri Yaakob

Projects

Herald

2026

AI safety, product strategy, market research, GTM

- Built Herald and its live working prototype, mapping Hong Kong regulations into sub-2-second AI safety and compliance guidance for physical workers on job sites
- Won HK\$100,000 from HKU's Dean's Innovation and Entrepreneurship Fund as the only Year 1 team selected for funding; supported 3 confirmed pilots

Breadcrumb

2026

Python, Streamlit, SQLite, Gemma/Ollama, OCR, document provenance

- Built a Gemma-assisted document provenance system that creates recipient-specific linguistic fingerprints for sensitive documents and attributes leaked screenshots/PDFs to the closest issued copy
- Implemented deterministic codewords, SHA-256 manifests, tracked links, OCR/Gemma extraction, fuzzy matching, contradiction scoring, and PDF/JSON evidence reports

Upright | Wearable Posture Monitor and Companion App

2023 – 2025

Independent Researcher and Product Builder | Hardware prototyping, app development, user research

- Designed the product around a 208-person survey, identifying that 76% of respondents reported poor posture and 90%+ reported recurring back pain
- Built 3 prototype iterations and a 47g Arduino and Bluetooth wearable with a companion app; engineered calibration and haptic-alert logic and qualified for a Regeneron ISEF qualifier

Honors

- HK\$100,000 Dean's Innovation and Entrepreneurship Fund, School of Computing and Data Science, HKU, Jun 2026
- 3rd Place, Build with Gemma: GDG Cloud HK – AI-Driven Defense, Google Developer Groups Cloud Hong Kong, Jul 2026
- SEA Hack by MentorMates, Winner – Votee.ai & Aicoo Tracks, Jul 2026; HPE CodeWars, 1st of 3,000
- Ingenium STEM Hacks, 1st of 200; Humanistic Design Summit, 3rd

Skills

- Programming: Python, SQL, VBA, C++, TypeScript, Dart
- AI/data: Gemma/Ollama, agent workflows, Pydantic, Streamlit, OCR, fuzzy matching, human-in-the-loop systems
- Tools: Linux, Git, Excel, PowerPoint, Next.js, React, Flutter, Arduino, Firebase, SQLite
- Spoken languages: English, Hindi | Interests: film, piano, photography, video editing, storytelling
